

ODBIT - Department of Administration
From CEO of ODBIT
To Caleb - Manager of Investigators

This document is organized into three distinct sections: Rules, What to Do, and Who Will Supervise You. Once you have thoroughly reviewed and understood the contents of this document, you will be officially transferred to the Manager rank within the organization. By reading and accepting these notes, you are agreeing to adhere to and actively participate in all of the policies and guidelines set forth by ODBIT's Department of Administration, which will be outlined in SECTION 1.

It is crucial that, as you go through these rules, you also acknowledge the importance of abiding by them. These regulations are in place for a reason – to combat the negative aspects of the ROBLOX platform. ROBLOX, a well-known video game corporation, has a fundamental mission to eliminate harmful behaviors like cyberbullying, online dating, and other acts that go against the safety and well-being of its users. However, due to insufficient moderation and a lack of proper enforcement of their own community guidelines, many of these issues persist and continue to cause harm within the platform.

This is where our mission comes into play. Our goal is to counteract the harmful practices on ROBLOX and work towards eliminating the corrupt mindsets that are often seen among the younger users of the platform. Unfortunately, ROBLOX's management has failed to adequately address these problems, leading to a situation where we, as part of this organization, take on the responsibility of fighting against the toxicity and misconduct that can sometimes go unchecked. Over the years, ROBLOX has faced multiple lawsuits, including a particularly significant one a few years ago (Plaintiff Jane Doe vs. ROBLOX), highlighting the gravity of these issues.

Additionally, it is important to note that certain sections of this document may be updated every two weeks to reflect any changes or adjustments that need to be made in response to unforeseen circumstances or emergency situations. Please stay vigilant and regularly review these updates to ensure you are fully informed and compliant with the most current information.

By reading and understanding these notes, you acknowledge your commitment to upholding the rules and guidelines set forth in this document. Your participation in this program is contingent on your agreement to follow the standards established by ODBIT's Department of Administration. These rules are designed to foster a safe and productive environment, and your adherence to them is essential for the success of our mission. By continuing, you confirm your responsibility to stay informed and engaged with all updates and changes to the guidelines.

SECTION 1:

RULES AND SET GUIDELINES.

- A. We do not permit toxic hate speech or toxicity in general. It is unacceptable and we need to treat people like we would treat others who we love.
- B. We do not permit sexual acts coming from our staff members. We are fighting against sexual acts in ROBLOX, so why would you (in ODBIT) commit to sexual acts?
- C. We do not permit false accusations. Read in SECTION 2 to see what is a false claim, or accusation.
- D. We do not permit threats. It is absolutely unacceptable and if it is serious enough, we will kick you off and report the threat to your, and the victims local police station. Threats will be handled seriously with the right precaution. Read SECTION 2 on what to do if you see or hear a threat coming from ODBIT's departments.
- E. We do not permit calling the Department of Administration for no given reason. The manager rank is the bottom of the Department of Administration. Calling the Department of Administration for no given reason will be unacceptable and in a worse case in senario, will get banned from ever joining ODBIT again. It may not happen, but you will face consequences.

This is the end of SECTION 1. The next section: SECTION 2 is really important. Please read it thoroughly through.

There are no relevant links here for the topic of SECTION 1.

SECTION 2:

This section talks about the importance of your job and how to handle different situations. This is the most important part of the guidebook and will cost your job from on unredoable act. There will be links at the end of this section.

What to do if you see an online dater.

- A. Acknowledge the situation. This means to see if this is an actual case and not a false situation going on.
- B. Record it. This means to use any third party recording software (or ROBLOX's recording feature) to have video evidence of the people online dating.
- C. DO NOT engage with them if you are a rank lower than lieutenant. Call a higher rank to sort this out. This is so we take correct protical for the situation.
- D. If situation escalated, please contact me immediately. I will try to be there ASAP. There will be emergency contact info at the bottom of this page.

What is considered a false claim?

In ODBIT, many things can be classified into 3 different severities of false claims and there will be info underneath each section. Please take note of these as we do not permit false claims as stated in SECTION 1, Class C.

Class A, Severity - Low

- A. Reporting a player whom may be online dating, but stating the wrong info about the investigation/report. This could lead to a fine or a low level punishment.
- B. Reporting a player who you think was an online dater, and if proven that you didn't know, you will be left off with a warning or possibly a training session.
- C. Reporting a player who you have logged incorrectly is directed as a false claim. Please check over your information and please enter the correct fields. This is vital as our team of investigators and even country officials cannot find the player if their information is incorrect. **PLEASE CHECK THE INFO YOU PUT IN.**

Class B, Severity - Mid

- A. Reporting a pedophile and typing in the incorrect info can and will get you in trouble sometimes. It will be classified as if no one was even online dating. Please check the info you put in. (SECTION 2, B, CLASS A, C)
- B. Reporting an online dater and claiming they were doing acts (sex, etc.), will get you put on administrative leave until our team finds out what and why you reported.

Class C, Severity - Extreme

- A. Reporting a "pedophile" who was not even online dating will get you fired and fined up to 300RBX. Reporting a user who is not even a pedophile for pedophiliac behaviors will get you in serious trouble. Please refrain from reporting an non-guilty user as a pedophile.
- B. Reporting a staff member for pedophiliac behaviors even though they are innocent, will get you in very serious trouble. You will be fired and fined up to 600RBX.

Emergency Contact

odbitrobloxofficial@gmail.com (Soon to change)

@cyoclonic - Discord

IF FOR SOME REASON YOU CAN NOT REACH ME VIA TOP LINKS,

+1 (570)-360 9673 - Not my personal phone number, do not try to spam it or you will be fired and fined.

SECTION 3: WHO WILL BE SUPERVISING YOU + ODBIT HISTORY.

ODBIT has been around for 6 months at the time of making this document. And we have come far in such a short period of time thanks to all the supporters and workers. Me, Evan, really appreciates every single worker who helps out at ODBIT. Without you all, it would be very hard to manage all of this stuff. It started off with me, on a call with Jero, and I thought as I saw the ROBLOX chat, "I should start an organization to stop online dating." And when I brought up to Jero that I was starting a organization a few days later, he agreed to help work with me. And so that is why Jero is our CO- CEO of ODBIT, and will be supervising all lower ranks in the ODBIT Department of Administration.

Who is Jero?

Jero is my friend of about 7 months who is really loyal and supportive of me, and so I decided to give him the rank of CO- CEO.

Who is Sophie?

Sophie is my friend I met about 2 years ago and we decided to become friends. Me and her discussed and I agreed to let her become CO- CEO of ODBIT aswell.

What will they supervise me for?

Your rank is Manager, so you will manage all of the lower ranks and will also help manage all of the on-going investigations. The CO- CEOs will keep eye of you to make sure you are properly doing work that is reasonable and applicable to our organization. It is Jero, and Sophie's job to keep on track of supervising your moves on ODBIT. If they make you uneasy at times - (They Wont) - please contact me via the contact info stated at the end of SECTION 2.

You have reached the end of the notes. Once you have thoroughly read through these notes twice, please take the quiz given to you.
